Master’s Degree Programme in

Leadership for Change
Master’s Degree Programme in Leadership for Change

The programme enables developing the kind of knowledge and expertise in leadership that is needed to deal with change. By interacting with staff members from various disciplines – business, governance, politics and international relations – as well as with different societal stakeholders, you will learn to foster new forms of engagement across sectors of the economy and society. The specialisations available are the following: Governance for Sustainable Change, Politics in Wider Europe and Sustainable Business Management.

Degree (depending on specialisation) Master of Administrative Sciences, Master of Science (Economics and Business Administration), or Master of Social Sciences
