**Abstract:** Attachment security and internal representations of mothers, and of the mother-child relationship, were examined in an ethnically diverse and economically disadvantaged sample of maltreated (N = 92) and nonmaltreated (N = 31) preschool-aged children. Maltreated preschoolers had lower rates of secure attachment and higher rates of disorganized attachment than did nonmaltreated preschoolers. Maltreatment also was associated with less positive global representations of the mother-child relationship relative to the nonmaltreated comparison group. Analyses were conducted to determine whether maltreatment characteristics such as subtype, chronicity, severity, and frequency were associated with attachment organization and with internal representations. Implications of these results for developmental theory and intervention with maltreated children are discussed.

## 2. CITED REFERENCE SEARCH

Haku etsii artikkelit, joissa on siteerattu tiettyä artikkelia tai tekijää. Haulla saa listan, josta näkee, kuinka monta kertaa ko. artikkeliin/tekijään on viitattu, ketkä ovat viittaneet ja missä lehdissä on viitattu.

### 1 Cited Reference Search –välilehti:

- **Cited Author**: missä on siteerattu ko. tekijää
- **Cited work**: missä on siteerattu ko. lehteä tai voi käyttää myös edellisessä laatikossa mainitun tekijän kanssa (missä on siteerattu tekijän A lehdessä B kirjoittamaa artikkelia)
- **Cited year**: siteerattu vuosi

The screenshot shows the 'Cited Reference Search' page on the Web of Knowledge platform. At the top, there's a navigation bar with 'WEB OF KNOWLEDGE SM' and 'DISCOVERY STARTS HERE' on the left, and the 'THOMSON REUTERS' logo on the right. Below this is a user navigation bar with links for 'Sign In', 'Marked List (1)', 'My EndNote Web', 'My ResearcherID', 'My Citation Alerts', 'My Saved Searches', 'Log Out', and 'Help'. The main content area has a 'Web of Science' header and a sub-header 'Additional Resources' with tabs for 'Search', 'Author Finder', 'Cited Reference Search', 'Advanced Search', and 'Search History'. The 'Cited Reference Search' section is active, showing a 'Step 1' instruction: 'Enter information about the cited work. Fields are combined with the Boolean AND operator.' Below this is a note: '\* Note: Entering the volume, issue, or page in combination with other fields may reduce the number of cited reference variants found.' There are three input fields: the first contains 'lehtimäki\*' with an example 'O'Brian C\* OR OBrian C\*', the second is empty with an example 'J Comp\* Appl\* Math\* (journal abbreviation list)', and the third is empty with an example '1943 or 1943-1945'. Each field has a dropdown menu for 'Cited Author', 'Cited Work', and 'Cited Year(s)' respectively. Below the fields are 'Search' and 'Clear' buttons, with a note 'Searches must be in English'. A 'Current Limits' section shows 'Timespan' set to 'All Years' (updated 2011-06-20) and 'Citation Databases' set to 'Science Citation Index Expanded (SCI-EXPANDED); Social Sciences Citation Index (SSCI); Arts & Humanities Citation Index (A&HCI)'. There are also links to 'Adjust your search settings' and 'Adjust your results settings'. At the bottom, there's a 'View in:' section with options for '简体中文', 'English', and '日本語', and a footer with copyright information: '© 2011 Thomson Reuters | Acceptable Use Policy | Please give us your feedback on using Web of Knowledge.'
