

Bibliography

A note on this bibliography:

In addition to those works that are referred to in body text or notes, this list includes some other sources that I have found helpful. The tripartite division (below) is applied simply for reasons of utility, and somewhat against my views that most texts can be read as having both “fictional” and “factual” aspects, or as embodiments of some “theory.”

In some cases, the date of the translation or the edition I have used differs significantly of the original publication date. Those entries have been indicated in the references with double dates (original date / date of this edition; eg. BARTHES 1973/1990).
